FCC MAIL SECTION

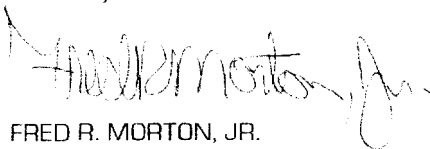

Dear Sir:

Enclosed are an original and three copies of a Petition for Rulemaking to add FM channel 286A to the community of Weatherford, Oklahoma.

Should you or any of your staff have any questions regarding this petition, please feel free to contact me directly.

This petitioner will, upon assignment of the channel to Weatherford by the Commission, file the appropriate application upon lifting of the filing freeze currently in place.

Sincerely,

FRED R. MORTON, JR.

can be made without affecting the allocation of any other station.

3. Weatherford, Oklahoma has one existing daytime only AM facility and one FM facility and has been previously been determined to qualify as a community for allocation purposes.
4. The proposed reference point is 35 33 02 N - 98 43 59 W. This reference point is in full compliance with 47 CFR 73.207 and other requirements.
5. Since the proposed allocation would provide Weatherford with its second FM coverage service, and contribute to the fair and efficient distribution of FM allocations, the instant proposal would be in the public interest. Morton will apply (when appropriate) for authority to construct the Channel 286A facility upon grant of this Petition.

WHEREFORE, the foregoing considered, Morton respectfully requests that the Commission GRANT the instant petition, and AMEND the FM Table of Allotments as shown below:

Community	Present	Proposed
Weatherford, OK	247 C1	247 C1, 286 A

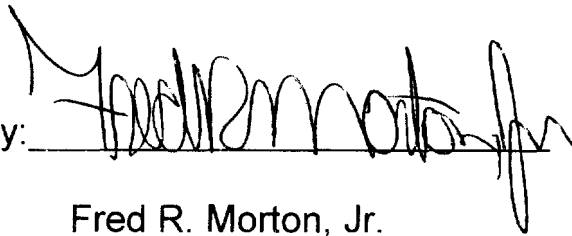

Respectfully submitted,

PETITION FOR RULEMAKING
WEATHERFORD, OKLAHOMA

ENGINEERING EXHIBIT E-1

As described within the Petition, this exhibit will show that channel 286A can be allocated to Weatherford, Oklahoma without shortspacing or other allocation concerns. The proposed site is that of existing FM broadcast station KWEY (FM) on channel 247 C1. Due to the rural nature of the surrounding terrain, it is anticipated that land will be available for the construction of a tower suitable for a proposed station on channel 286A. The engineering exhibit (E-1) shows all pertinent allocations and stations, and the lack of conflict with the proposal herein.
